MEMORANDUM FOR THE RECORD

SUBJECT: [] GS-12, 33 Years of Age

1. I talked with [] on 23 March 1970 concerning his future. [] an IP careerist, currently is on loan to the ONE Staff. I have been told by the Chief of that Staff that ONE has no further need for [] and will release him when asked to do so.

2. I told [] that we should be happy to have him back in NPIC, but before making any decisions I wanted to know how he viewed his future and what were his interests. He replied, as summarized by me below:

a. He would prefer not to continue working on China, although he would make the best of it if that was his area of assignment.

b. He is interested in investigating two kinds of work, both different from the photo interpretation and analytical work he has been doing on China:

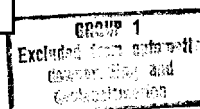

(1) He is interested in getting into "administrative" work of a staff or support nature, involving "problem solving," coordination or personnel work.

(2) He also has an interest in the computer-related work field.

c. He would be willing to do such work in NPIC or elsewhere in the Agency.

3. I told [] that we would assist him in attempting to locate a position corresponding to his interests. I urged him to develop his own lines of investigation as well, and to keep me informed of same.

[]
Executive Director, NPIC
